

## Run your business apps on an iPad.

Launch your business apps practically anywhere with AppEazy - now available for iPad and iOS devices

### Business as usual.

Whether you're at home or the office, on your laptop or iPad, AppEazy makes the process of switching from device to device or from place to place completely seamless. You won't have to familiarize yourself with a new interface either - even if you're launching an app like Sage MAS 90 on your iPad, you'll see the same interface you're used to seeing on your desktop or laptop.

**Mobilize your Business**  
Access your business applications practically anywhere with your iPad or iOS devices.

**Automatic Backup**  
Forget about file storage - everything is automatically saved to your AppEazy system.

**Always on the Grid**  
Work seamlessly from your office to your home to nearly any off-site location.

### Anywhere under the clouds

If you have a signal, you're in business - literally. Whether you're on WiFi, 3G or 4G, a reliable connection means you'll always be able to run your critical business apps on your iPad or iOS devices.

#### Any iOS Device

iPhone

iPad

iPod Touch

#### Try it for free

If you already own an AppEazy system simply download the AppEazy Connect app. You can find the app on our website at [www.applianz.com/DownloadClient.html](http://www.applianz.com/DownloadClient.html), or from Apple's app store by searching for "AppEazy Connect"

#### New to AppEazy

Sign up for a free demo at [www.applianz.com/Demo.html](http://www.applianz.com/Demo.html). Once you receive your notification email just download the AppEazy Connect app and enter your information.

#### Have Questions?
